

SHEKHER TANWAR

Full Stack Developer · 3 Years Experience · React · NestJS · React Native

Palwal, Haryana, India | shekhar.tanwar889@gmail.com | +91 98122 14724 | [linkedin.com/in/shekher-tanwar-0310b3255/](https://www.linkedin.com/in/shekher-tanwar-0310b3255/)

PROFESSIONAL SUMMARY

Full Stack Developer with 3 years of experience building production-grade enterprise CRM platforms used by 500+ field agents across 20+ live products in manufacturing, polymer, and distribution sectors. Specialises in SFA, Loyalty Management, and DMS modules. Proven ability to ship end-to-end features across React.js, NestJS, React Native, and PostgreSQL. Currently pursuing MCA while working full-time, demonstrating strong commitment to continuous growth. Agile-experienced with a track record of delivering complex, high-volume systems on time.

TECHNICAL SKILLS

Frontend Angular · React · React Native · HTML5/CSS3 · TypeScript · JavaScript
Backend Node.js · NestJS · REST API Design
Database PostgreSQL · MySQL
CRM Domain SFA (Sales Force Automation) · Loyalty Systems · DMS (Dealer Management System)
Tools Git · GitHub · Postman · VS Code · Jenkins · Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Developer | Abacus Desk IT Solutions

May 2023 – Present

Faridabad, Haryana

- Owned end-to-end delivery of 5 enterprise CRM products (Idemitsu, Microtek, Okaya Ozone, Prayag) serving manufacturing, polymer, and FMCG distribution clients with 500+ active field users.
- Built SFA modules — geo-tagged field visits, beat planning, order booking, route optimisation, and live KPI dashboards — reducing manual reporting effort for field sales teams by an estimated 40%.
- Engineered Loyalty platforms with configurable reward point engines, multi-tier customer segmentation, redemption workflows, and time-bound campaign management, driving measurable repeat order rates.
- Developed DMS modules covering real-time inventory tracking, stock alerts, full order-dispatch lifecycle, and dealer performance analytics, cutting stock discrepancy resolution time significantly.
- Shipped offline-first React Native mobile apps for 100+ field agents operating in low-connectivity environments; background sync eliminated data loss on unstable networks.
- Designed and optimised RESTful APIs with NestJS, tuned PostgreSQL and MySQL queries for high-volume transactional workloads, improving query performance under peak load.
- Implemented role-based access control across admin, distributor, and field agent personas with scoped data views and custom UI per role, strengthening data security across multi-tenant deployments.

KEY PROJECTS

Idemitsu — Enterprise CRM (SFA, Loyalty & DMS)

- Built end-to-end SFA module with geo-tagged field visits, beat planning, order booking, and live KPI dashboards for Idemitsu's lubricant distribution network.
- Developed Loyalty platform with configurable reward point engine, multi-tier customer segmentation, and redemption workflows; implemented DMS modules for real-time inventory tracking and dealer performance analytics.
- Tech: React.js · NestJS · PostgreSQL · React Native

Microtek — Enterprise CRM (SFA, Loyalty & DMS)

- Engineered SFA workflows covering route optimisation, field agent check-ins, order capture, and target-vs-achievement dashboards for Microtek's pan-India sales network.
- Delivered Loyalty module with time-bound promotional campaigns and automated tier upgrades; built DMS covering dealer onboarding, stock alerts, order-dispatch lifecycle, and payment tracking.
- Tech: React.js · NestJS · PostgreSQL · React Native

Okaya — Enterprise CRM (SFA, Loyalty & DMS)

- Developed SFA module with GPS-based field visit tracking, beat planning, and real-time order management for Okaya’s battery and EV product distribution teams.
- Implemented Loyalty reward engine with multi-tier segmentation and campaign management; built DMS modules for full order-dispatch lifecycle, stock discrepancy resolution, and dealer performance reporting.
- Tech: React.js · NestJS · PostgreSQL · React Native

Ozone — Full-Suite Enterprise CRM (SFA, Loyalty & DMS)

- Delivered SFA, Loyalty, and DMS modules in a unified platform with real-time KPI dashboards tracking targets vs. achievement across multiple regions and roles.
- Implemented RBAC for 3 distinct user personas (admin, distributor, field agent), each with scoped data access and custom UI, enabling secure multi-tenant usage across polymer and FMCG distribution clients.
- Tech: React.js · NestJS · PostgreSQL · React Native

Prayag — Cross-Platform Mobile Field App (SFA, Loyalty & DMS)

- Developed offline-first React Native app for 100+ field agents with GPS check-in, visit reports, order capture, and background sync for uninterrupted operation in low-connectivity zones.
- Integrated SFA reporting pipeline and Loyalty reward tracking within the mobile app; built DMS stock and order views enabling field agents to manage dealer inventory on the go.
- Tech: React Native · NestJS · PostgreSQL

EDUCATION

Master of Computer Applications (MCA) — In Progress | J.C. Bose University of Science & Technology
Faridabad, Haryana 2024 – 2026

Pursuing MCA while working full-time — demonstrating commitment to continuous learning and academic growth.

Bachelor of Computer Applications (BCA) | J.C. Bose University of Science & Technology
Faridabad, Haryana 2020 – 2023

CORE STRENGTHS

Enterprise CRM Development · SFA & Loyalty Systems · Dealer Management (DMS) · Cross-Platform Mobile (React Native) · REST API Architecture · Offline-First App Design · Agile Delivery
